This presentation will give you an overview of IET student membership. If you're looking to go further in your academic studies, take advantage of our study and learning resources. They could really help your grades. Our Student Web Zone gives you access to: news, features, case studies, revision and study toolkits as well as job hunting advice and CV tips and techniques. We'll also email you our termly newsletter, which offers advice on study tips, and how you can best take advantage of IET tools and membership resources.

For more info: [http://www.theiet.org/students/](http://www.theiet.org/students/)

If you need extra funds to help with your career ambitions, then you can apply for an IET scholarship. We reward engineering aspirations, enterprise and excellence with a range of annual scholarships and awards. Our awards range from £500 to £10,000 and can include travel packages to further your studies. We also run a Present around the World competition with cash prizes that allows you to talk for ten minutes on an engineering or technology subject of your choice and be prepared to answer questions for a further five minutes.

For more info: [http://www.theiet.org/about/scholarships-awards/](http://www.theiet.org/about/scholarships-awards/)

If you're interested in learning new skills, our local networks run a series of courses on subjects such as: project management, presentation skills, negotiation and many others.

A key benefit of IET Membership is that you'll have access to a wealth of knowledge resources. Our Library and Archives offer a world-class collection of digital and printed resources on all areas of engineering and technology. As well as our actual library, we have a virtual library; consisting of thousands of online e-books, e-journals, magazines and reports, accessible anytime, anywhere.

For more info: [http://www.theiet.org/resources/library/](http://www.theiet.org/resources/library/)

As a member, you'll receive our community newsletter, Member news, and a free copy of our Engineering and Technology magazine. E&T magazine provides news, features, expert commentary, multimedia and analysis on every aspect of science, engineering and technology.

For more info: [http://eandt.theiet.org/](http://eandt.theiet.org/)

Through IET.tv, we also have a comprehensive collection of lecture and presentation videos – both live and archived – which will help you to keep up with the latest technological issues and developments online.

IET membership can make you more employable and it will make sure that you go further in your career.

The IET offers the graduate membership package, 'Graduate Advantage', for final year students and graduates within 1 year of graduation. There are a host benefits that have been designed for you, and they'll really give you confidence when you start planning to launch your career. These include: a professional IET email alias, career development resources, an IET student membership certificate, a personalised letter for your employer confirming your membership status and lots more. You also receive £20 membership for one year following your graduation.

For more info: http://www.theiet.org/students/graduate-advantage/index.cfm

Crucially, your membership will give you much-needed job hunting resources to help you with job searching, job applications and your CV. You'll also be able to impress your future employers by becoming a Member with designatory letters MIET.

As your professional body, we're here to make sure that your always developing so that you're always moving forward and keeping your skills fresh. As a member of the IET you'll be able to use Career Manager – an online tool that will help you to record and structure your Continuing Professional Development. Career Manager is also where you prepare and submit your application for professional registration so that you can move on to become either a Chartered Engineer (CEng), Chartered IT Professional (CITP), Incorporated Engineer (IEng), Engineering Technician (EngTech) or an ICT Technician (ICT Tech).

For more info: http://www.theiet.org/membership/career/cpd/

As a member of the IET you're becoming part of a community of knowledge and expertise. We support global communities in the collaboration and exchange of knowledge to shape the future of engineering, technology and the profession. What's great about the IET is that you're able network with some of the world's leading innovators through our online forum MyCommunity. You'll also be invited to a host of different events, courses and seminars where you'll be able to network in person.
