**Computer Science Tripos 2017**

The Faculty Board of Computer Science and Technology give notice that, with effect from the examinations to be held in 2017, the form of the examination for the following papers for the Computer Science Tripos will be changed as follows:

**Computer Science Tripos Part IA 2017**

Paper 2 will contain two questions on Software Engineering and Security, replacing Software Interface Design. Candidates will be expected to answer five questions.

In Paper 3 (new regulations), Section A will contain 2 questions on Databases, Section B will contain 2 questions on Graphics, Section C will contain 2 questions on Interaction Design and Section D will contain 3 questions on Machine Learning and Real-world Data. Candidates will be expected to answer five questions, one from each of Sections A, B and C and two from Section D.

**Computer Science Tripos Part II 2017**

Paper 7 will contain 14 questions. These will include a question on Machine Learning and Bayesian Inference, replacing Artificial Intelligence II. Candidates will be expected to answer five questions.

Paper 8 will contain 15 questions. These will include a question on Machine Learning and Bayesian Inference, replacing Artificial Intelligence II. Candidates will be expected to answer five questions.

Paper 9 will contain 16 questions including a question on Mobile and Sensor Systems. Candidates will be expected to answer five questions.

All other papers remain unchanged. Students are referred to the Faculty website at: [http://www.cl.cam.ac.uk/teaching/exams/](http://www.cl.cam.ac.uk/teaching/exams/) for further details.
