Parse the string 'abc' with an agenda of size 5. What parses do you get?

- To score a configuration we will sum action scores.
- Assume shift = 4, right-arc = 2, left-arc = 1.

To start you off:

1. \[ \text{agenda} \rightarrow \text{abc} \]

N.B. You will need to decide how to handle ties...

Return to video when finished.
