Installing the Undergraduate Student version of Matlab.

Download the installation source and either burn it to an optical disk, or unpack it using suitable software.

Run the file "Setup.exe".

This will install either the 32 bit or 64 bit version according to which Operating System you are using.

When prompted, select install using the Internet.

Please take a moment to read the license agreement before clicking Yes then Next.

You may be prompted by the following message, but it is unlikely. If you do see this message click on the links provided for further information before clicking **Next**.

📣 Product Configuration Notes	
Your installation may require additional configuration steps.	
1. The following products require a <u>supported compiler</u> :	MATLAB SIMULINK*
Stateflow 7.8	R 2011 b
2. Simulink requires a C compiler for simulation acceleration, model reference, and MATLAB Function Block capabilities. It is recommended that you install a <u>supported compiler</u> on your machine.
