Errata for:
AM Pitts, Operationally-Based Theories of Program Equivalence
In: A. M. Pitts and P. Dybjer (Eds), Semantics and Logics of Computation,

Page 264: equations (3.10) and (3.11) should read:

\[
L \Downarrow H :: T \Rightarrow \exists H', T' (L' \Downarrow H' :: T' & H \cong_{\tau}^{gnd} H' & T \not\mathcal{R} T') \tag{3.10}
\]
\[
L' \Downarrow H' :: T' \Rightarrow \exists H, T (L \Downarrow H :: T & H \cong_{\tau}^{gnd} H' & T \not\mathcal{R} T') \tag{3.10}
\]

[Thanks to Eduardo Bonelli and Roy Crole for pointing this out.]
