

**We are the 99 percent.**

**We are getting kicked out of our homes. We are forced to choose between groceries and rent. We are denied quality medical care. We are suffering from environmental pollution. We are working long hours for little pay and no rights, if we're working at all. We are getting nothing while the other 1 percent is getting everything. We are the 99 percent.**

Plot the distribution functions that this statement is referring to. Is the statement true?

Explain where you got your data. Explain any approximations or assumptions you made.

Post your answer to the Moodle forum by noon on Tuesday. Best answer wins £20 (and the other 95% of you win nothing).
