---

1. Campaigners argued:

2. Also KYC 100\$ redux to 10cents
3. Assuming government competent
4. Assuming data accurate (HMRC stories)
5. Assuming unique ID (NHS stories)
6. What could possibly go wrong

# Methods for unifying

---

1. Single Id
2. Federate Id systems
3. Keep systems separate and let users do join
4. add yours here

# Opportunities for improvement

---

1. Biometrics
2. Data Science/de-noise/wrangers
3. Users self-improve (google scholar/wiki style)
- 4.

# How too enforce separation

- Tech&Law
